CONFIDENTIALITY

Information provided by applicants will be considered confidential and treated as such by the South Australian Government, the DIP, members of the DIP Advisory Board, the DIP Research Working Group and any third parties from whom advice is sought.

Confidential information will only be released with the applicant's agreement or when required by law.

RESEARCH & INNOVATION SECURITY ASSESSMENT

All shortlisted DIP CRF projects must complete a RESEARCH & INNOVATION SECURITY ASSESSMENT (RISA). The DIP Team will lead the assessment process and will engage with all Project Team members, including the Defence members or sponsors.

The RISA provides a clear understanding of the security requirements associated with a R&I project, including release limitations, and who can undertake the R&I collaboration.

Please note: given the fundamental nature of the R&I of most CRF projects, it is expected the majority of projects will be low security and require no protection or DISP entry level. However, a completed RISA remains a requirement.

If this Application is shortlisted, the Lead Organisation will complete a RISA as directed by the DIP Team
